

PROSPECTOR PRO 2.0 TRACKS SYSTEM

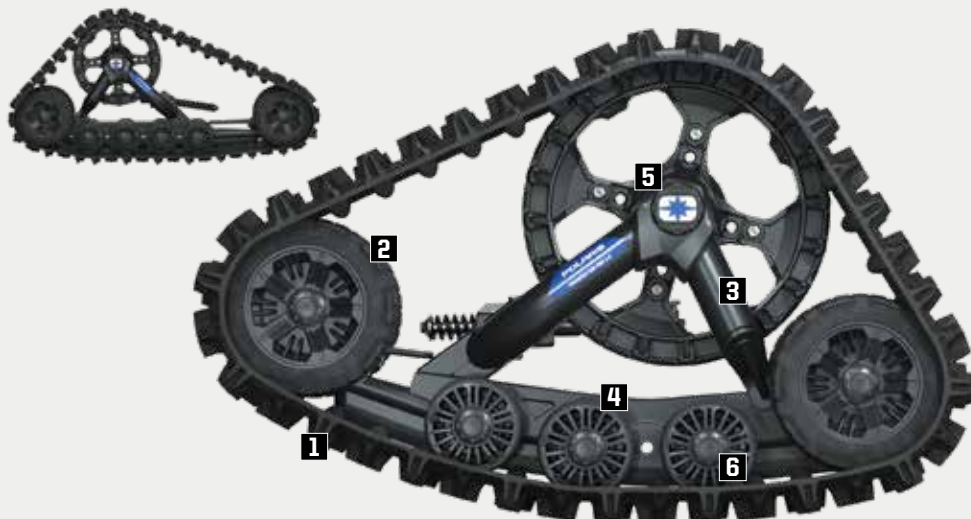

1 INDUSTRY'S FIRST FLEX-TRACK DESIGN

Front-mounted tracks with flexible sides and slight curve toward the inside to allow stable handling, a more comfortable ride and precise steering for long-distance riding and long working hours.

2 HIGH-DENSITY TIRE WITH ADJUSTED SHAPE

With puncture-proof tires that reduce friction and wear, the Prospector Pro 2.0 Tracks delivers trouble-free performance.

Take on bumps and obstacles with confidence with the 8" high-density tracks.

3 LIGHTWEIGHT POWDER COAT STEEL FRAME

Proven geometry to improve durability and deliver capability in all conditions throughout the life of the tracks.

The lighter frame provides more flotation to stay on top of the snow and allows the tracks to easily shed snow, mud and debris.

4 TANDEM STABILIZER

Bolt-on tandem mid-roller wheel provides a smoother ride by absorbing shocks.

5 BEARING HOUSING

Outer seals and stainless steel sleeves allow stronger bearing durability and greater reliability.

6 WHEEL CAP & SEAL

Fitted wheel cap with bladder effect eliminates water absorption due to temperature variation. Ride in snow and mud and not worry about the track maintenance.
